

1 : 50,000

CONTOUR INTERVAL 20 METRES

NOTES :

Heights are in metres and above Indian mean sea level.
Contours are approximate.
A relative height, e.g., .8r, represents the approximate height, in metres, between the top and bottom of steep slope.
A relative height, e.g., .30r, against a well indicates its total depth in metres.
Tanks, shown dry, in this area usually contain water from July to February.
Unmetalled roads and cart-tracks in this sheet are generally motorable (four-wheel drive) in dry season.
Diggi is a tank which is used for collection of water.
