Hello friends, I joined Aakash Institute in 2017 for 2-year classroom program. The institute supported me a lot and I want to give credit to management who provided all the required facilities and to faculties of Aakash who were experts of their subjects. The study package given here is more than sufficient and based on N.C.E.R.T., for competitive exams and boards preparation. The tests conducted in Aakash provide a real insight environment as present while giving medical entrances. Term tests and fortnightly tests conducted in Aakash regularly clarified all the doubts related to the topic, through mistakes. A.I.A.T.S. conducted here highly motivated me to secure better rank and improve myself after every test. Nodal Batch during the end of course helped me to evaluate myself while solving difficult and concept based questions. It also provided a very competitive environment around me. Most of my success is due to my parents and the faculties of Aakash. I would recommend medical aspirants to join Aakash for a successful preparation for N.E.E.T, A.I.I.M.S. and J.I.P.M.E.R.
