<p> Hello friends, My name is Sarthak Bhat. I joined the 2-year integrated classroom program for NEET-UG & AIIMS. I owe my success to the facilities and teachers at Aakash institute. They were instrumental in improving my concepts as well as question solving ability. Doubt sessions were also held at Aakash, that helped me a lot to improve my weak areas. The Aakash study package in itself is all inclusive, and contains apt information along with selective question practice to improve speed and accuracy. Various weekly, fortnightly and term tests were held which helped me to assess my progress. Most importantly, AIATS were held, that helped me to judge my position at an all India level, and compare myself with my peers. In all, Aakash institute played a vital role in helping me to achieve a good rank. </p>
